#### **DETAILED ACTION**

1. The finality of the office action dated September 2, 2001 is withdrawn in view of the Supplemental Diclosure Statement filed August 6, 2001.

# Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

# Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims 1-5, 7-10, 42 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over JP58095344A (JP'344).

  The JP'344 discloses a photographic element contains a compound of the claimed invention. Note for instance the compound on page 291, first column; exemplified compounds DP-6, DP-9, DP-12, DP-17, DP-20, DP-25 on pages 293-294. The compound of the claimed invention is within the scope compounds of formula DP-6, DP-9, DP-12, DP-17, DP-20, and DP-25 when Y is C, X is -S0<sub>2</sub>-, t is 0-1 and W groups are formed a ring. Accordingly, the invention as claimed is anticipated by

Art Unit: 1752

JP'344. Alternatively, it would have been obvious to the worker of ordinary skill in the art to use a compound within the scope of JP'344 to provide an invention as claimed.

### Response to Arguments

- 5. Applicant's arguments filed October 9, 2001 have been fully considered but they are not persuasive because of the rejection set forth above. The material of JP'344 is considered as a photographic and photothermographic material since the development thereof includes light exposure and heat development. Note to heat development on page 299 column 34.
- 6. Claims 1, 11 are objected to because of the following informalities: the claiming of T is a substituted or unsubstituted <u>alkyl cycloalkyl</u> should be "T is a substituted or unsubstituted alkyl, cycloalkyl". Appropriate correction is required.

### Conclusion

- 7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
- 8. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on August 10, 2001 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS**MADE FINAL. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Page 4

Application/Control Number: 09/475,703

Art Unit: 1752

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thorl Chea whose telephone number is (703)308-3498. The examiner can normally be reached on M-F (9:30 - 6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Janet C Baxter can be reached on (703)308-2303. The fax phone numbers for the organization where this application or proceeding is assigned are (703)305-3599 for regular communications and (703)305-3599 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)308-0661.
